

Scoring & Timing Solution

For Aussie-Rules Football

This is a general solution for LED display in soccer stadium which has the functions of scoring, timing and advertising notification, the information of referees and teams. It is an ideal choice for most of stadiums.

1. System Chart

1.2 System description

- 1) Two LED screens are controlled by one PC which connects with LED sending card.
- 2) Ultra score software will be installed on that PC to display the score, time and advertisement as required.
- 3) A score console special for referees' operation is connected with the PC.

2. Products List

2.1 Ultra Score Software

Products	Details
Ultra Score software	<ul style="list-style-type: none">◆ Standalone edition◆ Supports: Aussie-Rules Football◆ Including 1 dongle
Ultra Score software	<ul style="list-style-type: none">◆ Standard network edition (Terminal + 1 Display)◆ Supports: Aussie-Rules Football◆ Including 1 dongle
Ultra Score software	<ul style="list-style-type: none">◆ Professional network edition (Terminal + Referee + 2 Display)◆ Supports: Aussie-Rules Football◆ Including 1 dongle

Difference:

Standalone Edition:

Match management, Scoring, and Media display functions, all in one installed on a PC. Referee must do operation on the PC for display directly.

It is suitable for the stadium where has just one screen, which doesn't have strict needs of the scoring and timing accuracy.

Network Standard Edition:

Score terminal and media player functions can be installed on 2 PCs respectively. So that one independent PC can be setup on the courtside special for referee's operation, the other PC running as media player to manage the LED display.

It is suitable for the stadium where has one screen, needs to do the scoring and timing on the courtside.

Network Professional Edition:

Except the function of score terminal, 1-3 media players can be equipped on PCs separately, in order to display different contents on several LED screens.

It is suitable for the stadium where has more than 2 screens where referee need to do scoring on the courtside and LED screens need to display different contents separately. (For example, one LED screen is for scoreboard and another is for advertising or player info).

System Diagram:
