

Scoring & Timing Solution For Korfball

This is a general solution for LED display in stadium which has the functions of timing, scoring, displaying advertisement, notification, the information of referees and teams. It is an ideal choice for most of stadiums.

1. System Chart

1.1 System Structure Description

- 1) Two LED screens are controlled by separate computer which connects with LED sending card.
- 2) One laptop is equipped on the court working as Ultra score terminal special for referees' operation.
- 3) All computers are connected into LAN in stadium.
- 4) Both of the LED screens can show the same contents or different contents as required.
- 5) 25s shot clock installed on the site for attach timing can be controlled simultaneously.

2. Specification for products

2.1 Ultra Score Software

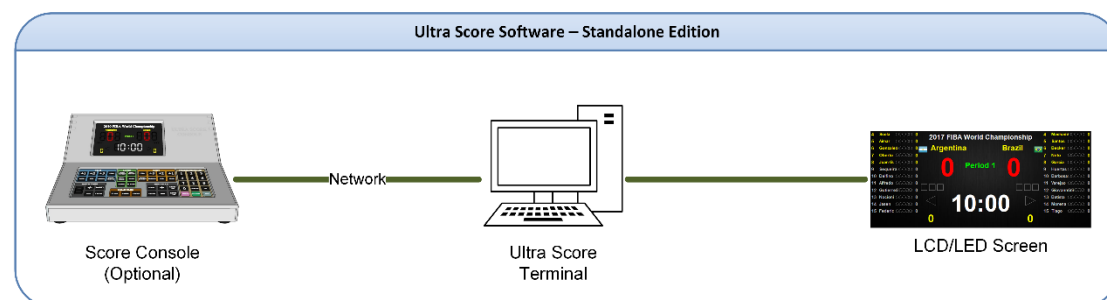

Products	Details
Standalone edition	<ul style="list-style-type: none"> ◆ Installed on one PC. ◆ Supports: Korfball ◆ English version ◆ Including 1 dongle
Network standard edition	<ul style="list-style-type: none"> ◆ Terminal + 1 Display ◆ Supports: Korfball ◆ English version ◆ Including 1 dongle
Network professional edition	<ul style="list-style-type: none"> ◆ Terminal + Referee + 2 Display ◆ Supports: Korfball ◆ English version ◆ Including 1 dongle

Difference:

Standalone Edition:

Match management, Scoring, and Media display functions, all in one installed on a PC. Referee must do operation on the PC for display directly.

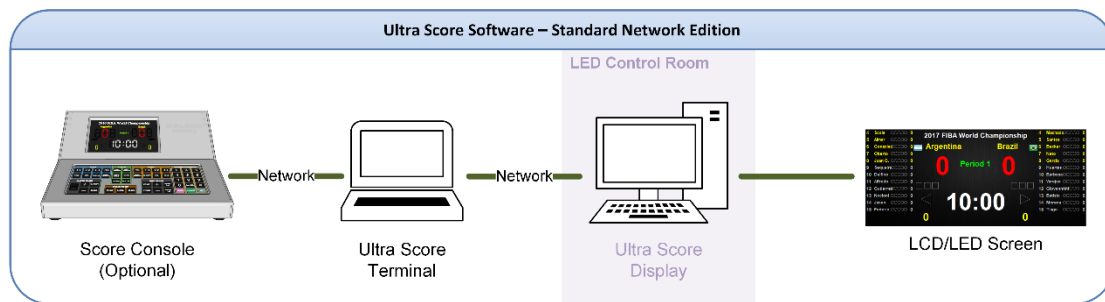

It is suitable for the stadium where has just one screen, which doesn't have strict needs of the scoring and timing accuracy.

Standard Network Edition:

Score terminal and media player functions can be installed on 2 PCs respectively. So that one independent PC can be setup on the courtside special for referee's operation, the other PC running as media player to manage the LED display.

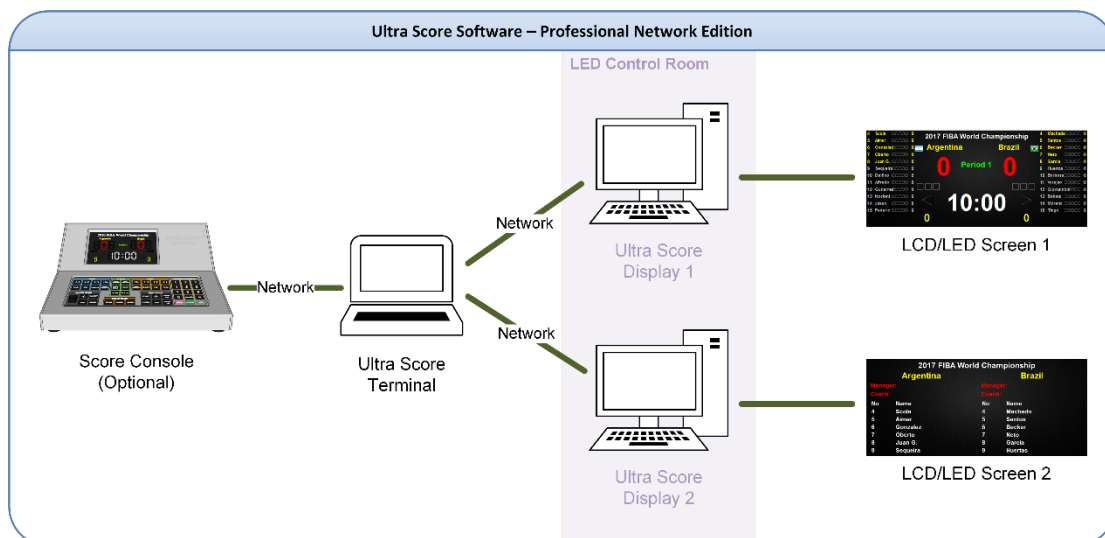

It is suitable for the stadium where has one screen, needs to do the scoring and timing on the courtside.

Professional Network Edition:

Except the function of score terminal, 1-3 media players can be equipped on PCs separately, in order to display different contents on several LED screens.

It is suitable for the stadium where has more than 2 screens where referee need to do scoring on the courtside and LED screens need to display different contents separately. (For example, one LED screen is for scoreboard and another is for advertising or player info).

Scoring interface for korfball
