

# Ultra Score Console (KS-MONSTER)

## Software Upgrade Instruction

### Step1

Prepare a USB disk.

### Step2

Create a subdirectory named “upgrade” in USB disk.

### Step3

Download the upgrading software from following link and save it to “upgrade” subdirectory.

[http://www.kazovision.com/sports/ultrascore/download/upgrade\\_ks-gc18/](http://www.kazovision.com/sports/ultrascore/download/upgrade_ks-gc18/)

KS-MONSTER + KS-GC18 Upgrade		
KS-MONSTER	Date: 2020.11 Size: 7.35 MB	monster.mug
KS-GC18	Date: 2020.11 Size: 27.07 MB	touchpad.exe

#### Step4

- 1) Keep the system running, then insert the USB disk to the USB port on the back of Monster.

- 2) You will see “UPGRADING...” word flash across and then go to “RESTARTING...” on the LCD monitor, which means upgrade has been done.

# Ultra Score Console (KS-GC18)

## Software Upgrade Instruction

### Step1

- 1) Make sure that KS-GC18 has been connect to the Internet.
- 2) Plug a mouse and keyboard into USB port on the KS-GC18.
- 3) Exit the “touchpad” application if it’s running.

### Step2

Open a browser and go to the following website and download the “touchpad.exe”.

[https://www.kazovision.com/sports/ultrascore/download/upgrade\\_ks-gc18/?lang=eng](https://www.kazovision.com/sports/ultrascore/download/upgrade_ks-gc18/?lang=eng)

KS-MONSTER + KS-GC18 Upgrade		
KS-MONSTER	Date: 2020.11 Size: 7.35 MB	 monster.mug
KS-GC18	Date: 2020.11 Size: 27.07 MB	 touchpad.exe

Install the “touchpad.exe”, upgrade will be finished.
